

# AJ SDA Church – A/V Procedures

## Rear TV

1. The display on the Rear TV is controlled independently from what is displayed on the front projector screen
2. The input for the Rear TV must be set to HDMI-3 using the Viseo Rear TV remote control
3. Selecting the Rear TV input source:
  - a. The 4 available sources are displayed on the 4-part screen to the right of the A/V computer workstation
  - b. The input source is selected using the small remote to right of the A/V computer workstation aimed at the small switch box to the right of the computer displays
  - c. Buttons 1-4 select input source #1-#4
  - d. Button #5 is currently unused
4. Be sure the Rear TV is set to display the song lyrics during singing.
5. Be sure the Rear TV is set to #2 to display the pastor's PPT during the sermon.
