Community Services opportunity: The American Red Cross-national blood supply has fallen to critically low levels—dropping nearly 25%-- since early August, and potentially threatening the medical care of patients with an emergency need for blood, or those living with critical conditions such as cancer and sickle cell disease and who depend on lifesaving blood transfusions. Back-to-back months of worsening natural disasters have further strained the blood supply, resulting in blood drive cancelations and reducing much needed blood and platelet donations in affected areas. **Donors of all blood types are urgently needed, and there is an emergency need for platelet donors and type O blood donors. To make an appointment to give blood or platelets, donors can use the Red Cross Blood App, visit RedCrossBlood.org or call 1-800-RED CROSS (1-800-733-2767).**
